The Southern Pacific Land Grant.

Washington, November 11th.—Charles H. Tweed, of New York, counsel for the Southern Pacific Railroad Company of Arizona and New Mexico, has filed an answer to Congressman Payson's letter to the Secretary of the Interior with reference to the validity of the land grant originally made by Congress to the Texas Pacific, and now claimed by the Southern Pacific as assignee of the former co-poration. Tweed accuses Payson of "various attitudes" in respect to the land grant involved in the case, which he argues might tend to discredit his first impressions in respect to such matters. He proceeds to characterize Payson's opposition to them as gratuitous and somewhat officious. He maintains that his clients were allowed to cross the Yuma reservatuitous and somewhat officious. He maintains that his clients were allowed to cross the Yuma reservation and bridge the Colorado river because the Government appreciated the need of such a bridge operated by the company owning the adjoining railroad, instead of one owning a railroad 1,200 miles distant. He quotes Generals Sherman and McDow ell to show the military importance of the enterprise. Tweed attacks Payson's statements relative to the financial position of the Central Pacific Railroad, which he says will be contraducted by the winds up with a request that the matter be referred to the Attorney-General for his opinion of the duty of the Secretary of the Interior in the premises.

Swindling the Soldiers. WASHINGTON, November 11th. — The report of econd Auditor Ferris, and its consideration by Atorney-General Brewster, has led to another branch of the investigations connected with the swindling of soldiers by claim agents. The District Attorney has discovered that a number of firms here have issued circulars soliciting claims for additional bounty, and accepting fees in advance for pretended presentations of this class of claims. The fraud arises from the fact that the time for filing these claims expired, under law, June 30, 1883, since which time the Second Auditor has not received of the investigations connected with the swindling nem. The practice of these firms is now found to e to accept these cases, take a fee, and stack the pplications away in their offices. If those who ave placed claims fer additional bounty in the

Fire at Sea.

New York, November 12th—A. M.—The steamship Tallahassee, of the Ocean Steamship Company of Savannah, sailed with 3,200 bales of cotton and a quantity of turpentine, and had a crew of seventy-five men and thirteen passengers. When off the Highlands, at 6:45 o'clock this evening, she was discovered to be on fire in the forward hold. Every effort was made to extinguish the fire, but without success. Captain Fisher ordered the engineers to run her at full speed. This was done, and the burning steamer arrived at pier 33, North river, this city, at 10 o'clock to-night. Docking her took an hour, and by that time fire engines were on the pier and the fire steamer beside her. The passengers were landed, and the firemen went to work. At an early hour this morning the fire is still burning among the cotton, but had not spread aft, where the turpentine is. The loss will be heavy; fully covered by insurance. The Tallahassee is an iron vessel, launched one year ago. Before disembarking, the passengers united in writing a letter of praise for the coolness and courage of the officers and crew.

The Attorney-General stated that the object of the meeting was to arrange for paying the costs already accrued and those to be added in carrying the appeal through the Supreme Court of the United States.

H. H. Main, of Santa Clara, was made Chairman of the meeting, and W. H. Hammond, of Tulare, Secretary. Controller Dunn stated that thirty-five counties had been in

After a free discussion as to the expense likely to be incurred in the appeal, and as to counsel to be employed, in which there was a wide difference of views, a motion was made that the counties represented at the meeting agree to pay their respective proportions of the necessary funds to carry out the object

Upon a roll-call representatives from Alameda, Santa Cruz, Tulare, San Benito, Napa, Fresno, Monterey, San Joaquin, Sutter and Colusa voted aye; San Mateo voted no. Mr. Smith, of San Francisco, said he had no au-thority to act in the premises, as he was only appointed to attend the meeting, and not to act. Mr. Dusterbery, of Alameda, said he was in the same dilemma, but that he had voted aye, trusting to his county to ratify his action. Colusa county at first voted no, but finally, upon assurance that in the event the State wins the money should be refunded to the county, its vote was changed to aye. Mr. Martin explained by saying that he voted in the affirmative upon the understanding that it was a mere formal expression of opinion on the part of those present, and that the counties were not bound by it. This was also the understanding of others who repre-

sented other counties.

This expression called forth the remark from one of the delegates that he could see no use in holding this meeting if the action taken was binding upon no one. After some further remarks, a motion was made by Mr. according to their respective interests in the matter, which motion was carried. Another motion that \$1,000 be given to the
